

Trello Integration

“Trello is a collaboration tool that organizes your projects into boards. In one glance, Trello tells you what's being worked on, who's working on what, and where something is in a process.”

Authentication

1. In the login window, click **Create Token**.

2. Connect LadyBug Tracker to Trello.

Would you like to give the following application access to your account?

LadyBug Tracker

You are logged in as:

Name

Tomasz Klin

Username

tomaszklin

[Switch Account](#)

LadyBug Tracker will be able to use your account **until you disable it.**

LadyBug Tracker is not affiliated with Trello, and by permitting access to your content you assume all related risks and liabilities.

3. Use the token to log in.

You have granted access to your Trello account via the token below:

your token here

 **NOTE:** Only give this token to an application that you know and trust.

 You should **not** send this token directly to another individual who has sent you an authorization link via email, chat, or similar.

Project setup

The Trello integration does not need a project setup.
